

The NAIS DASL Databook

As an NAIS member, you and your school can run custom reports as many times as you would like throughout the year. You can include any of your school's comparison groups that you would like to use.

To pull the NAIS DASL Databook, log in and take the following steps:

1

In the top navigation bar, float over **BROWSE REPORTS** and click on “Tables (Custom Reports)”

2

For Association, select “NAIS”

For Category, select the Databook you would like to download

For Template, select All Templates to print the full book, or one of the sections listed to print it alone

3

The system will automatically input your school information.

Select your desired comparison group, and the geographical area for which you would like data about the general population.

Click “Export to PDF”
